HUMANITIES EXPERTISE

This film festival is a world-class event that is said to be an integral part of the cultural fabric of the Berkshires. BIFF showcases not only the latest in independent feature, documentary, short, and family films but also lively panel discussions and special events focusing on filmmakers and talented artists from both sides of the camera. A large portion of the events is to create discussion. The festival aims to provide filmmakers, producers, directors, writers and actors an environment to collaborate, present their work, and interact with each other and with film audiences.
