MISSION

Interested in issues that impact poverty and damage to the earth. Through this corporation the collective brainstorms sustainable solutions.

HUMANITIES EXPERTISE

While there are mission trips one can take, IICD is also an education center. From handling the economy, administration and enrolling the students for the teams, to producing and shopping for food, taking care of guests, maintaining buildings, cooking and cleaning, devising the menu plan, they do it all together.

Students and teachers organize and reorganize themselves according to how it is best fitting to the program and the projects that have to be done.

HUMANITIES RESOURCES & PROJECTS

PROGRAMS

- **Fighting with The Poor - 18 months Africa Program:** The group will address and discuss the problems and the big issues of our present time from the perception of the poor. We will gain a better understanding into world policy's and the corporations that cause global strife.
- **9 months South America Program:** Currently Brazil has huge divide between rich and poor. Less than one percent of the population owns more than fifty percent of the land, while fifty percent owns less than one percent. Brazil is a very dynamic society with almost any nationality represented. The group will study to attempt to understand the divide.

EVENTS
