MISSION

The Center for EcoTechnology's mission is "to research, develop, demonstrate and promote those technologies which have the least disruptive impact on the natural ecology of the Earth."

HUMANITIES EXPERTISE

The Center for EcoTechnology (CET) helps people and businesses save energy and reduce waste. For more than 40 years, CET offered proven advice and resources to save people money, make people more comfortable at home, and help businesses perform better. As a non-profit 501(c)(3), CET works with partners throughout the region to help transform the way we live and work for a better community, economy, and environment – now and for the future. CET provides practical solutions that save energy, materials and money and have a positive impact on our environment and community. CET serves residents, businesses and communities in the areas of energy efficiency and waste reduction and through their retail store, [EcoBuilding Bargains](http://EcoBuildingBargains.com).

HUMANITIES RESOURCES & PROJECTS

PROGRAMS, RESOURCES & EVENTS

- [Go Green Action Resources](#): CET invites the community to make a positive impact at the personal, local and global levels by providing resources on how to take small steps to go green in one's own life.
- [EcoFellowship Program](#): This program is a one-year paid fellowship position to work with CET staff and other EcoFellows to carry out a range of activities related to climate action initiatives and educational programming in western Massachusetts.
- [Go Green News](#): Read the CET blog packed with tips to make green make sense.
